TSP Policies - Document C Rural Land Use and Transportation

INTRODUCTION

This document provides an overview of current policies regarding rural roads in the Clackamas County Comprehensive Plan and staff recommendations for revising those policies and creating new policies. The staff recommendations are based on review of the existing County Comprehensive Plan – Chapter 5, State Transportation Planning Rule (TPR), Regional Transportation Plan (RTP), and TSP Vision, Goals and Objectives.

Key Questions (Draft)

- 1. Do we need a general policy on the integration of rural land use and transportation? If so which one?
- 2. Should we modify the rural access standards so that they are based on the speed of the road?
- 3. Do we need a policy concerning agricultural equipment on the road way? If so which one?
- 4. Do we need specific policies for safety and road condition? If so which one
- 5. Do we need specific parking policies for the rural area?
- 6. Which policies should be used to address equestrian issues in the County?

		Road Access Standards		
85 A	Access Standards 14.0	Plan and control access onto roads within the County, as shown on Table V-5, for urban areas and according to the American Association of State Highway and Transportation Officials (AASHTO) guidelines for rural areas, for both new and existing uses, and coordinate with the Oregon Department of Transportation for access control on state highways. Access standards need to be applied in a flexible manner that maintains reasonable access to property when access cannot be denied. Where access management standards are adopted by the County in Special Transportation Plans,	Plan and control access onto roads within the County, as shown on Table V-5, for urban areas and according to the American Association of State Highway and Transportation Officials (AASHTO) guidelines for rural areas, for both new and existing uses, and coordinate with the Oregon Department of Transportation for access control on state highways. Access standards need to be applied in a flexible manner that maintains reasonable access to property when access cannot be denied. Where access management standards are adopted by the County in Special	R
85 B	New – Alternate language	those standards shall apply	In rural areas, proposed new access locations on County facilities should be located to meet minimum sight distance requirements per the AASHTO Guidelines based on the roadway 85th percentile speed. If the recommended minimum sight distance cannot be achieved along the property frontage due to topographical or other constraints, the access should be located along the site frontage where sight distance is maximized.	R
86	Access Standards 15.0	Support the implementation of state access management standards (OAR Chapter 734, Division 51, as amended, and the Oregon Highway Plan) on state highway facilities within the Interchange Management Areas.	Support the implementation of state access management standards (OAR Chapter 734, Division 51 , as amended , and the Oregon Highway Plan) on state highway facilities and within the Interchange Management Areas.	R M

		Road Access Standards		
87 A	Access Standards 16.0	Improve highway operations and safety by supporting construction of public roads that provide reasonable alternative access within Interchange Management Areas. When reasonable access is provided, support the elimination of direct access to state highway facilities.	No Change	R
87 B	New – Alternate language		Improve multimodal operations and safety by ensuring that Interchange Management Area plans and other access plans and projects are coordinated with multimodal connectivity standards and are designed to support safe and convenient travel for all modes, as well as safe and convenient access for all modes, when appropriate.	R
88	New		Ensure safe and convenient access for bicyclists, pedestrians, and transit users for land uses that are open to the general public.	0
		Agricultural equipment movement on roads		
89 A	New – Alternate language		Support the safe movement of agricultural equipment in rural areas by improving existing road to county standards	0
89 B	New – Alternate language		Ensure that the needs of the County's diverse agricultural sector are supported through transportation planning and investment.	0

		Traffic Safety Action Plan		
93	New		The Clackamas County Safety Action Plan will be adopted	0
			by reference as a Transportation System Plan	
			implementing strategy. As it is necessary, the County	
			Board of Commissioners will update and amend the	
			Clackamas County Safety Action Plan to reflect any	
			needed changes	
94	New		Require a Predictive Method analysis of impacted	R
			roadway facilities along with a capacity analysis as part of	
			traffic impact studies (TIS).	
95	New		Work with state and local partners to implement the	0
			"Oregon Transportation Safety Plan"	
		Equestrian		
96	New		The County's land use and transportation planning shall	0
			protect existing equestrian trails where feasible.	
97	New		Soft-surface multiple-use trails, located in corridors	0
			separate from roadways are the preferred option for	
			equestrian travel for safety reasons and to avoid conflicts	
			with vehicles.	
98	New		Support equestrian trail use by:	0
			a) Working with local communities to identify, protect,	
			create and maintain multiple use trails that support	
			horse travel.	
			b) Maintaining County-owned equestrian trails.	
			c) Planning for parking areas at trailheads that support	
			trail riding and accommodate horse trailer parking.	
99	New		Representatives from the equestrian community should	0
			be given the opportunity to participate in planning and	
			development actions that may impact equestrian	
			facilities.
